

Get weaned pigs eating quickly with Akey Piranha Pig.

Piranha Pig is a specialized feed for newly weaned pigs.

Our most palatable pig feed for weaned pigs and starve outs.

Priority and success in weaned pig systems defined by:

- *Fewer “starve-out” pigs.*
- *Fewer pigs to “pull” and treat.*
- *Fewer pigs to gruel*
- *Fewer poor gaining pigs and “fall-outs”.*

Early feed intake after weaning is priority NUMBER ONE.

- *Better starts require early, aggressive food intake.*
- *Early aggressive food intake results in:*
 - *Fewer fall-backs*
 - *Fewer potential culls*
 - *Better early gains*
 - *More full value pigs*

Typical early aggressive feeding with Akey Piranha Pig

Delayed food consumption at weaning can result in increased vulnerabilities to:

- *Chilling*
- *Early gut problems*
- *Diarrhea*
- *Weight loss*
- *Reduced health*

When Piranha Pig is fed on mat/ board, pigs will quickly and aggressively eat. Akey Piranha Pig also works excellent mixed with water and fed as a “gruel”. Mash form reduces wastage vs. pellets rolling and bouncing off mats or boards.

- *Developed and formulated to stimulate and achieve early food intake.*
- *Highly palatable.*
- *This achieved without the high cost of expensive prestarter pellets.*
- *Good for the gut.*
- *Includes medication.*

**FEED FOR UP TO FIVE DAYS AFTER WEANING ON MATS/ BOARDS AND IN FEED TRAYS.
FEED IN GRUEL FEEDERS WITH WATER FOR CRITICAL CARE PIGS AND “STARVE OUT” PIGS.**
