

**PURINA**  
**LAYENA**  
 Plus OMEGA-3  
 PREMIUM BRAND  
 POULTRY FEED

ENHANCED WITH  
**Omega-3**  
 FOR MORE NUTRITION IN EVERY EGG

*A chance to give your flock something they truly enjoy would be reason enough to try Purina® Layena® Plus Omega-3 pellets poultry feed made with whole grain. You'll love watching them eat it up!*

*But it's what you can't see that makes Purina® Layena® Plus Omega-3 poultry feed truly unique. It's made with flaxseed, which not only supports a healthy flock, but also provides enhanced nutrients in their eggs. While a typical egg provides a mere 65mg of Omega-3 fatty acids, an egg produced by healthy poultry fed exclusively on Purina® Layena® Plus Omega-3 poultry feed contains 200mg of Omega-3.*

*And like all Purina® SunFresh® Recipe poultry feeds, you can rest assured Purina® Layena® Plus Omega-3 poultry feed contains no added hormones, antibiotics, animal fat or animal by-products. Just wholesome goodness for a delicious, homegrown egg.*

**FEATURES**

**BENEFITS**

Formulated to produce 200mg Omega-3 per large egg*	300% more Omega-3 than a typical egg!
Natural vegetarian formula without added antibiotics or hormones	Peace-of-mind – feed your birds like you feed your family
Superior nutrition	Strong healthy birds lay plenty of wholesome eggs
Select level of marigold extract	Rich golden yolks
Key levels of calcium and manganese	Strong shells with fewer cracks
Optimized level of Vitamin E	Supports a healthy immune system

EGGS  
 PRODUCED  
 CONTAIN  
**200MG OMEGA-3\***

\*When fed a diet of Layena® Plus Omega-3 exclusively for at least 3 weeks. Based on large egg (50g). Results may vary with factors such as total diet and hen health.

**MAKING SENSE OF OMEGA FATTY ACIDS**

If you're like most people, you're aware that Omega fatty acids are good for you—you're just not sure why.

Omega-3 and Omega-6 are essential fatty acids. While the body needs them for proper heart and brain function, growth and development, the body cannot manufacture them on its own for optimal health. So they must come from the diet.

But there's a catch—it's critical to maintain the appropriate balance of Omega-3 to Omega-6. Unfortunately, the typical American diet provides far more Omega-6 than is necessary and this imbalance can prove detrimental over time.

But you can tilt the balance in your favor by looking for opportunities to add Omega-3 to your family's diet. Eating eggs produced through an exclusive diet of Purina® Layena® Plus Omega-3 are a wholesome and delicious way to add some of those much-sought-after Omega-3 fatty acids.

\* When fed a diet of Layena® Plus Omega-3 exclusively for at least 3 weeks. Based on large egg (50g). Results may vary with factors such as total diet and hen health.  
 \*\* Versus crumbles and mashes that stick to feeders or scatter on the ground

<p>Feed Purina® Layena® Plus Omega-3 SunFresh® Recipe poultry feed free-choice as the sole ration to laying chickens after 18 weeks of age and throughout the laying cycle. Best fed one month before hens begin to lay, but not any earlier than 18 weeks of age. Please consult the feed tag sewn onto this bag for specific feeding instructions.</p>										

## FEEDING LAYENA® PLUS OMEGA SUNFRESH® RECIPE:

1. Feed Purina® Layena® Plus Omega-3 pellets free-choice as the sole ration to free-range and confined laying chickens (including backyard egg producers, small to medium breeds and show and ornamentals) after 18 weeks of age and throughout the laying cycle.
2. Purina® Layena® Plus Omega-3 pellets are best fed one month before hens begin to lay, but not any earlier than 18 weeks of age.
3. Purina® Layena® Plus Omega-3 pellets can be fed to both adult male and female chickens, ducks, geese and turkeys.
4. Always provide shelter and a constant supply of fresh, clean water.
5. Consumption will vary depending upon season of the year, nutritional needs of the animals and availability of other foods.

### IMPORTANT:

A feeding program is only as effective as the management practices. Actual results can vary depending upon feed intake, environmental conditions and the quality of management practices.

### CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.
