

Vita Charge® Paste

Stimulate rumen microorganisms to offset the negative effects associated with calving scours, weaning, hauling, and other stresses.

Recommended Feeding Directions:

Administer orally on back of tongue.

Beef and Dairy Cattle

Up to 350 lbs 10mL
Over 350 lbs 15 mL

Sheep, Goats and Swine

Growing 5 mL
Mature 10mL

Guaranteed Analysis

Potassium (K).....1.7% Min.
Zinc (Zn).....10.0 mg Min.
Vitamin A..... 200,000 IU Min.
Vitamin D₃.....50,000 IU Min.
Vitamin E400 IU Min.
Vitamin B₁₂ 500 mcg Min.
Bacillus subtilis 200 million CFU Min.

Ingredients

Vegetable Oil, Dried Aspergillus oryzae Fermentation Product, Dextrose Monohydrate, Potassium Chloride, Dried Whey, Vitamin E Supplement, Vitamin A Supplement, Niacin Supplement, Monodiglycerides, Manganese Proteinate, Zinc Proteinate, Zinc Sulfate, Manganese Sulfate, Ethylenediamine Dihydriodide, Sodium Selenite, Choline Chloride, Calcium Carbonate, Silicon Dioxide, Vitamin D-3 Supplement, Vitamin B-12 Supplement, Natural and Artificial Flavorings, Cornstarch, Biotin, Cobalt Carbonate, d-Calcium Pantothenate, Pyridoxine Hydrochloride, Folic Acid.

Sizes Available

Product

15 mL	79300
80 mL	79301
300 mL	79302

Key Benefits:

The correct balance of required minerals and vitamins.

Contains macro and micro minerals (including a source of organic trace minerals) and essential vitamins to stimulate the immune system and appetite.

The Amaferm® advantage

Rumen microflora are very sensitive to stress. Stress can negatively impact the growth rates of the normal rumen flora significantly decreasing nutrient digestion and calf growth during periods of stress.

What value does it have in the animal?

Stress will increase nutrient requirements in the calf. The problem is that stress can decrease appetite because of impaired microbial growth rates. The paste effectively stimulates the microbes, which increases nutrient digestion releasing more energy to maintain optimized animal health of productivity.
