

Blue Pond Dye

CONCENTRATED BLUE LAKE AND POND COLORANT WITH SUSPEND TECHNOLOGY TO EXTEND COLOR

Early season: and every 6 weeks during growing season
March – October

Pond Dye Instructions

1 gallon treats 1 acre 4–6ft deep. Just pour in from shore.
Blue Super Concentrated Dye enhances the natural appearance of the pond.

100% safe for water use immediately.

May apply even when ice is on the surface of the pond for early shading of water providing optimum protection.

Secure bottle to pole or dock with rope. Carefully punch hole in bottom of sealed bottle and set on ice. Open Cap - product will naturally drip out of container - melting through ice layer and treating water.

Apply 6 times per season for optimum water shading.
