New Lawn 8-10lbs/1,000 sq. ft. or 425 lbs/A  
Overseeding 4-5lbs/1,000sq. ft.

Sunlight needed	Full Sun-Partial Shade
Soil Types	Clay to Sand
Maintenance	Medium
Fertility	Medium
Traffic	Very Good

### NOTES ON PROPRIETARY FINE FESCUES:

Tall Fescue is known as a durable, drought tolerant grass that is much more fine bladed than the tall fescues of the past. The improved varieties have a very dark green color and match well with perennial ryegrass and Kentucky bluegrass. This lateral spreading tall fescue is great for tigh traffic areas. Bluegrass exhibits deep and penetrating rhizomes. Great all around turf seed mix.
