

Game Bird Flight Conditioner[®] Product 5435

What It Is...

A complete ration to stimulate growth and feathering in birds 6 to 16 weeks of age.

Features

Developed specifically for flying game birds

High protein, low energy diet

Supplemental vitamins & minerals

Optimum levels of amino acids and salt

Complete feed

Consistent Quality

Benefits

° **Meets special needs...**

... Flight Conditioner[®] Product was formulated specifically to

build strength and feather density in game birds.

° **Fewer problems...**

...Flight Conditioner is a high-protein, low energy ration which promotes muscle and feather development while preventing excess fat.

° **Better performance...**

...New levels of vitamins and minerals help your animal utilize energy more efficiently.

° **Reduced risk...**

...Proper protein and salt levels provide maximum protection against cannibalism caused by imbalances of these nutrients.

° **Easy to use...**

...One product meets the nutritional requirements of all species of game.

° **Provides uniform nutrition...**

...You know your birds are getting a complete, balanced ration with every bite.

How To Feed...

Feed continuously as sole ration to game birds from 6 to 16 weeks of age or until released to keep flying birds in top condition. Then follow with Game Bird Maintenance Chow game bird feed.

Important:

1. Clean, fresh water should be available to the birds at all times.
2. A feeding program is only as effective as the management practices followed.

Caution:

Store in a dry, well-ventilated area free from rodents and insects. **DO NOT** use moldy or insect-infested feed.
