MEDICATED

Medicated for nursing and starting sheep. For the prevention of coccidiosis in sheep caused by *Eimeria bakuensis* and *Eimeria crandallis*, *Eimeria ovinoidalis* and *Eimeria parva*.

Caution: Use as directed.

Active Drug Ingredient: Decoquinatate (27.2 g/ton)

Warning: Do not feed to sheep producing milk for food.

FEEDING DIRECTIONS

Offer Honor® Show Chow® Showlamb Creep Pellet DX feed in a creep feeder when lambs are 10 – 14 days of age. Feed at the rate of 0.5 lb per 30 lb body weight to provide 22.7 mg Decoquinatate per 100 lb body weight daily. Honor® Show Chow® Showlamb Creep Pellet DX feed may be fed for a longer time period where a high protein ration is desired before transitioning to Honor® Show Chow® Showlamb Grower feed. Designed to be fed with roughage.

Tips for starting young lambs on feed:

- Offer straight soybean meal in the creep feeder when lambs are 7 to 10 days of age.
- Offer Honor® Show Chow® Showlamb Creep Pellet DX Pellet 7 to 10 days after beginning soybean meal.
- Remove soybean meal 7 to 10 days after introduction of pellets.

Caution: Store feed in a dry area away from insects. Do not feed moldy or insect-infested feed.

Reminder:

- Feed is perishable and should be stored in a clean, dry, well-ventilated area so it will remain fresh and palatable.
- DO NOT feed moldy or insect infested feed to animals as it may cause illness, abortion or death.
- Fresh, clean water should be available at all times.

THE WINNING PHILOSOPHY

Efficient production requires a thorough understanding and application of the fundamental principles of good husbandry and sanitation. The Purina® Winning Philosophy program will help you step into the spotlight.

- 1. GOOD BREEDING:** Practice a sound genetic program of selection and culling. Visit a professional breeder for more information. Know the feeling when you have that perfect animal that has the best potential to win.
- 2. GOOD FEEDING:** Proper nutrition for different needs and lifestyles starts with Honor® Show Chow® products. Feed at regular times at least two times daily, with three daily feedings preferred. You can't become a Grand Champion without the best nutrition.
- 3. SOUND MANAGEMENT:** A clean environment minimizes stress and aims to improve average daily gains. Clean stalls, remove debris and provide fresh water daily. The daily attention to detail is the difference between a Grand Champion and lower placement.
- 4. PREVENTIVE HEALTH:** Establish an effective health program with your local veterinarian. A sick animal never makes it to the top.

These are the building blocks of the Honor® Show Chow® program and the keys to successful production. Practical application of these basic principles will not only support your animal's growth and development, but also increase its potential of winning on the show circuit.

POWER IN PERFORMANCE

We know the best way to help you realize your dreams starts by employing a Winning Philosophy:

WINNING PHILOSOPHY
