

EB Show Sow 90 AA

- Exciting New Sow Gestation/Lactation Base Mix
- Developed with consultation from the Akey Nutrition Team
- Targeted to Show Pig Producers & Commercial Producers with highly prolific sows
- Chelated minerals to support overall health and reproductive performance
- Chromax to support reproductive performance (average increase .5-1 pigs/sow/year)
- Nutrient dense product requiring less feed per head per day to maintain optimal body condition and reproductive performance.
- Added Biotin to maximize hoof/foot health
- Added Vitamin E
- Organic Selenium
- Akey Replacement Gilt Micro Booster
- Crystalline Amino Acids to reduce Soy Bean Meal inclusion levels in finished diets providing cost savings for producers. (AA Boost)
- Same base mix for gestation and lactation (Producer Convenience).
- Add Farrow Pac Plus to lactation diets if desired.
- Promotes in herd longevity of high economic/highly productive sows
- Protects Genetic Investment
- Competitively priced when compared to “High End” competitor sow feed programs
