AWARDS

WINNER ACHIEVEMENT PROGRAM

WE LIKE TO WIN
and we know you do, too!

The Sunglo® Rewards Program is our way of encouraging excellence and rewarding outstanding achievement in the show ring. Designed exclusively for active participants in 4-H and FFA, the Sunglo® Rewards Program is another way you win with Sunglo® premium show feeds.

If you're a recent winner in a qualified show and you feed Sunglo®, the chances are you've won a Sunglo® Reward!

Qualifying Shows:

We've organized our Sunglo® Rewards Program into three levels based primarily on the size of the show – from the county level right on up to the majors. The higher the level, the higher the award.

Only junior shows are eligible. Prospect, jackpot, and open shows do not qualify for the Sunglo® Rewards Program, nor do shows that are not open to an entire county.

- **Major Shows:** Major Shows are recognized for their size and the large number of entries from all areas of one or more states. They do not include national breed shows, which are covered in the next level below.
- **State, Regional & National Breed Shows:** Entries from 20 or more counties of any state and national breed show. This level includes all state fairs.
- **District/County & State Breed Shows:** Entries from fewer than 20 counties of any state show, state breed show and county fair show.
- **Complete listing of shows:** can be found under the REWARDS tab on sunglofeeds.com.

Qualifying Participants:

- Only youth showing animals/poultry as part of a 4-H or FFA project are eligible.
- Only animals and poultry that have been fed Sunglo® feed as the sole commercial ration for a minimum of 60 days prior to the show are eligible, except for cattle which require a minimum of 90 days.
- Program winners are limited to receiving the highest award per species per show year.
- Sunglo® brand management retains the sole right to determine the eligibility of the applicant and to interpret program rules.
- Upon request, shows that do not appear to meet the definition of an eligible show will be reviewed and considered for eligibility by the Sunglo® Rewards Manager.
- This program is subject to change or cancellation without prior notice.

More detailed information is available at sunglofeeds.com

CATTLE

ALL SUNGLO® CATTLE FEEDS CONTAIN:

Advanced protein and amino acid nutrition:

Unlocks the animal's potential for growth and development with select sources of non-degradable and rumen degradable proteins to promote rumen microbial growth and furnish the best complement of essential amino acids.

Optimal energy nutrition: Matches the animal's growing needs with multiple sources of energy during the growing phase and as weight gains shift from growing to finishing. Supports efficient development and conditioning with reduced risk of digestive upsets (off-feed problems, acidosis, burnout) sometimes seen when excessive cereal grains are fed.

Optimal trace minerals: Proteinated copper, zinc, manganese and cobalt are used to provide highly bioavailable sources. These key trace minerals provide protein synthesis and energy utilization and to help maintain tissue integrity, support the immune system response and help maintain show condition of hair coat and hide.

Rumen and gut health technology: Helps improve feed intake and helps reduce risk of digestive upsets and burnout over long feeding periods.

Easy to feed. EASY TO FIND.

CALF FULL BODY™

COMPLETE FEED
WITH COB FOR CREEP,
SALES PREP AND A
PRE-CONDITIONING FEED
TO HELP MAXIMIZE
BODY SHAPE AND
RUMEN HEALTH.

A premium, complete feed for show calves, specially designed for beef heifers and steers from 300 to 700 pounds in bodyweight to prepare them for sale and/or to be used as a receiving ration afterward. Also doubles as a supplemental pre-conditioning feed to use throughout feeding period to encourage body fill and bulk.

Highly palatable formula encourages consumption and helps keep animals on feed, even in new and unfamiliar surroundings.

Carefully balanced energy, protein and fiber help lessen the risk of digestive disorders with a positive energy balance to support growth during periods of stress.

Fortified with the right balance of vitamins and minerals to help avoid the negative consequences of stress to:

- Support the immune system response (selenium, Vitamins A and E).
- Help keep animals hydrated (potassium).
- Promote a healthy rumen microbial population supporting feed intake and digestion.
- Support hair coat health and shine (key ingredients and nutrients).
- Support active nutrient supplies of amino-acid and specific trace mineral complexes for copper, zinc and manganese.

Congratulations Maggie Ferguson!

GRAND CHAMPION 4-H MARKET STEER
2013 IOWA STATE FAIR

I really like the Sunglo® Steer feed with Sunglo® Show Calf Concentrate 34-B that is locally made at our mill with Wade Rodgers diet recommendations. They have better rib shape and more belly without getting too excessively fat like other feeds can do. The feed is very palatable as cattle seem to really like the taste of it. Makes it a lot easier to get cattle fat when they like to eat!

HOGS

ALL SUNGLO® HOG FEEDS CONTAIN:

Ideal carbohydrate balance: Improves showpig performance due to a better gut environment from ideal balance of starch, sugar and fiber from start to finish. Keeps your pigs on feed, on schedule and performing their best with superior energy metabolism, gut condition, stool consistency and more.

Ideal amino acid balance: Supports the immense muscle mass in showpigs by providing enhanced amino acid levels, including digestible lysine and five other important amino acids ratio to lysine, all balanced to support lean growth.

Innovative ingredients: Improves feed intake and performance. Tight formulation designs – in combination with ongoing world-class research – set a new industry standard for keeping your showpigs at the head of their class.

Active nutrient supply: Nourishes show pigs through elevated nutrients, enhanced nutrient availability and superior balance for unprecedented performance in showpigs at every stage.

Show micronutrients: Supports strong bone growth and immense muscle mass in superior show pigs from start to finish, including vitamin E, vitamin D, and biotin minerals like digestible phosphorus, potassium, chromium and zinc. All balanced to maximize show pig performance.

PRE-STARTER

THE CHOICE FOR CREEP AND SEVEN DAY POST-WEANING START. PRE-STARTER IS A SPECIALIZED ULTRA-SMALL PELLET DESIGNED TO SMOOTH THE TRANSITION FROM SOW'S MILK TO DRY FEED.

Pre-Starter is normally fed for 5 to 10 days after weaning. Pre-Starter is highly palatable to encourage feed intake. It contains plasma proteins, lactose and milk proteins at levels needed by young pigs immediately post-weaning. It can also be used as a creep feed when milk supply is limited.

2013 WORLD PORK EXPO**

With Sunglo® feed, we've taken good pigs and made them great! Sunglo® feed offers consistent, preformulated rations that are tailored to individual show pig needs, whether it be to soften or bulk one up. The step-by-step process makes it easy for everyone from novice to experienced feeders to find success. Although feeding the product is easy, if we've ever had a question there has been a Sunglo® feed expert to help guide us along the way.

FEEDING STRATEGY
FOR BARROWS:*

SOW BASE

A PREMIUM SOW BASE
MIX TO SUPPORT
PRODUCTION IN
GESTATION AND
LACTATION.

Contains vitamins, trace minerals, amino acids,
PLUS the following ingredients to support
reproductive performance:

- Organic Selenium (Se Yeast)
Improves selenium status.
- Chromium Tripicolinate (Chromax®)
A trace mineral that improves litter size.
- BioPlus 2B
A direct fed microbial that decreases pathogen
load in the gut and feces of pigs.
- Elevated Vitamin Levels.
- Promotes reproductive efficiency, conception
& hoof health.
- Contains a protected form of the phytase
enzyme to reduce the need for high levels
of inorganic phosphorus.
- L-Lysine is also included to reduce soybean
meal inclusion.

GUARANTEED ANALYSIS

SHOW SECTOR 1 CRUMBLE

A HIGH MILK PRODUCT
BASE MIX DESIGNED
TO MEET AND EXCEED
THE NEEDS OF
PIGS IN THE EARLY
STARTER PHASE.

This first phase mix allows producers to make a
complete grind mix feed after using Sunglo®
Pre-Starter and/or Sunglo® Starter.

- Designed for pigs 18 to 30 lb., but can be used up
to 40 lb. body weight.
- Formulated with the highest levels of milk proteins,
crystalline amino acids, plasma and other highly
digestible proteins to assist pigs transitioning to
ground feeds and promoting muscle development
and skin and hair aesthetics.
- Ingredient combination promotes appetite and
improved daily feed consumption.
- Non-medicated to allow for farm specific
medication options.
- Crumble form to optimize flowability in feeders.
Use at 500 lbs/ton along with corn, soybean meal,
and fat. – 50 lb. bag (10 bags/ton)

SHEEP AND GOATS

ALL SUNGLO® SHEEP & GOAT FEEDS CONTAIN:

Healthy Tract® Technology: A proprietary blend of select ingredients helps support urinary tract health by lowering pH levels and balancing calcium and phosphorous levels for optimum function in show lambs and goats on nutrient-rich show diets.

Advanced amino acid profile: Multiple sources of protein, by-pass amino acids and guaranteed amino acid levels help create a winning profile promoting optimum performance, including muscle development, growth in frame, bloom and body condition.

Superior palatability: Innovative formula with superior palatability encourages consumption in young, early weaned lambs and goats and helps keep them on feed for proper intake levels and superior performance from start to finish.

Performance-driven features: A powerful combination of added features promotes superior performance in show lambs and goats. Formula includes Omega-3 fatty acids, added yeast culture, direct-fed microbials and organic trace mineral complexes of selenium, zinc, manganese and cobalt. Copper included in goats feeds only.

Active nutrient supply: Elevated nutrient levels, enhanced nutrient availability and superior overall nutritional balance promote unprecedented performance in show lambs and goats at every stage.

Show micronutrients: Select micronutrients support strong bones, a healthy immune system and muscle mass found in superior show lambs and goats, including Vitamin E, thiamine, biotin and zinc. Copper included in goats feeds only.

Sheep Only

Thiamine (Vitamin B1): Supports the added Thiamine nutrient requirement for lambs, important for normal brain function.

LAMB CREEP TRANSITION 20-D

CREEP FEED DESIGNED TO GET
YOUNG LAMBS STARTED RIGHT

- 1/8-inch pellet for baby lambs.
- 20% protein with milk, fish and yeast products to develop the potential frame and muscling.
- Very palatable to encourage feed intake at an early age.
- May be fed for a few weeks past weaning to avoid a decrease in growth during that period.
- Contains 30.2 grams per ton of Deccox®.

GOAT TRANSITION DECCOX®

FEED FROM 3 WEEKS OF AGE
TO 5 WEEKS AFTER WEANING

Feed as a complete ration to
growing and finishing goats.
Contains Deccoquinatate at 9.1 mg/
lb. A consumption of 2.5 pounds

per 100 pounds body weight daily will provide the
desired level of Deccoquinatate. Feed for at least 28 days
during periods of exposure or when experiences indicate
that coccidiosis is likely to be a hazard.

ALL SPECIES

DEFINITION®

ENHANCES APPEARANCE AND
DEFINITION OF MUSCLE AS ANIMALS
ENTER THE SHOW RING.

A water-soluble product containing a complex formula that has been researched to enhance appearance and definition of muscle as needed prior to entering the show or sale ring.

Available in a pail of 20 packs (10-4 oz. packets of Definition Base and 10-2 oz. packets of Definition Activator).

FINAL CONTROL™

SUPPLIES NEEDED
NUTRIENTS TO
MAINTAIN MASS
AND SHAPE
DURING "HOLDING".

A unique "top dress" product designed for use with Sunglo® formulated show feeds when total feed intake is being restricted to achieve desired body weight or condition.

Final Control™ supplements supplies critical nutrients needed to maintain muscle mass and shape during a "holding program".

Feed 1 to 2 lb. per head, per day along with the amount of regular show feed needed to achieve the desired weight when restricting total feed intake to 4 lb. per day or less.

FULL TANK™

DESIGNED TO
INCREASE THE
CAPACITY OF
THE STOMACH
OR RUMEN.

- Maintains "gut fill" and keeps the fresh, expanded look.
- A nutritional product designed to increase the capacity of the stomach or rumen.
- Useful when intake is restricted to limit weight gain.
- When limit feeding, adding Full Tank™ supplement maintains "gut fill" and keeps the fresh, expanded look.
- Reduces stress level and hard look associated with a low feed intake.
- Contains a probiotic to aid digestive function.
- 1/8" pellet and works best when fed dry.
- Expands and retains more water than beet pulp.

SHOW BLOOM®

SHOWBLOOM® IS A NATURAL, HIGHLY PALATABLE NUTRITIONAL SUPPLEMENT FORMULATED TO IMPROVE ANIMAL HEALTH AND WELL-BEING.

For decades, ShowBloom® has been the preferred supplement of champions. A balance of high-quality protein, vitamins, and minerals, helps animals reach full genetic potential in skin and coat quality, muscling, and hoof condition.

ShowBloom® is based on food-grade brewer's yeast, a natural digestive system prebiotic. Just a few ounces of ShowBloom® each day increases feed intake and utilization and promotes efficient digestion, helping animals absorb maximum nutrition.

ShowBloom® is made without artificial colors, flavors, or preservatives.

**AT OVER
3,500 LOCATIONS**

Nationwide

Congratulations Kane Aegerter!

**GRAND CHAMPION SHORTHORN PLUS HEIFER
2013 NATIONAL WESTERN**

Kane Aegerter's **FEEDING STRATEGY FOR HEIFERS:**

We have come to
trust and rely on
the quality and
consistency we get
in every bag of

Sunglo® calf feeds. The program is very easy to use and with
each bag we feed, we know that the heifers are getting
everything they need. We are confident in recommending
the products to others that we see on the show circuit. Our
heifers stay at the top of their game, week after week, by
also utilizing 2 the Fullest™ and Full Body™. We are happy
with the results these products have shown us.

-Aegerter Family, Seward, Nebraska

CATTLE

2 THE FULLEST™
